

Commissioned in 2006, *White Knuckles* was stored for the first year, never launched or named by the first owner. Owner two took it for a ride and named it *White Knuckles*, going 58-60 mph, depending on water conditions. The 22' Gar Wood Speedster found a third home on the St. Lawrence River with Randy Fletcher. Five to six hour cruises on the river are the norm. Kids and adults love the "white knuckle" rides that are available for the asking.
